EXPERIENCE

Frontend Developer · Way to React Technology

May 2024 – Present

Built and shipped 5+ responsive React/Next.js e-commerce and business platforms with mobile-first UI, reducing design-to-code turnaround by converting Figma mockups into reusable Tailwind CSS component libraries

- Architected reusable component libraries, multi-step forms, and secure JWT authentication flows; integrated REST APIs using Axios and Redux Toolkit for scalable state management across 5+ client projects

Full Stack Developer · Nextun Technology Pvt. Ltd.

May 2023 - May 2024

- Engineered AI-powered WhatsApp coaching SaaS (NoXQS) using React, Node.js, PostgreSQL, and Claude API — supporting multilingual AI personas with end-to-end Twilio messaging workflows
- Integrated Stripe subscription billing with webhook handling; built admin dashboard with real-time analytics, subscription management, and conversation tracking via Socket.io and Redis caching

FEATURED PROJECTS

NoXQS — AI WhatsApp Coaching Platform

React.js · Node.js · PostgreSQL · Claude API · Stripe · Twilio

- Designed multi-tenant SaaS with multilingual Claude AI coaching personas; reduced admin overhead via automated subscription lifecycle management and real-time conversation analytics dashboard

Infinity Trucks — Real-Time Fleet Management

Node.js · Socket.io · Redis · InfluxDB · MongoDB · Teltonika GPS

- Architected live GPS vehicle tracking with <1s latency using Redis pub/sub; stored time-series telemetry in InfluxDB and built driver task-assignment and warehouse workflow modules

Glip — Health Management System Backend

Node.js · Express.js · PostgreSQL · REST API

- Delivered clinical REST APIs for patient onboarding, medication/jab/weight tracking, and side-effect logging; designed normalized PostgreSQL schema with indexed queries for high-volume clinical data

Way To React — E-commerce & Business Platforms

React.js · Next.js · Tailwind CSS · REST APIs [➔ waytoreact.com](https://waytoreact.com)

- Delivered production-ready storefronts and business sites with SEO-optimized SSR (Next.js), reusable component architecture, and seamless REST API integration
